Summary

UI/UX Designer specializing in user-centered digital products across web and mobile platforms. Experienced in translating business requirements into structured user flows, scalable design systems, and high-fidelity prototypes. Focused on improving usability, reducing friction, and delivering accessible, data-informed, and automation-aware design solutions.

Skills

Design Tools: Figma, Adobe XD, Framer, Webflow, Sketch, Stitch

UX and Research: User research, personas, user flows, usability testing, information architecture

Design Systems and UI: Wireframing, prototyping, micro-interactions, responsive design, typography, accessibility

UX Design: Design thinking, user journey mapping, problem-solving

Frontend Knowledge: HTML, CSS, and Basic JavaScript

AI and Automation: AI workflow automation, prompt engineering, process automation tools

Data and Analytics: Power BI, dashboard design, data visualization, basic analytics interpretation

Collaboration: Figjam, Notion, Miro, Jira

Experience

Vulcrux Systems / UI/UX Designer

Feb 2025 - Present

- Leading interface improvements to modernize the platform's design language and ensure visual and interaction consistency.
- Designing structured user flows, wireframes, and high-fidelity interfaces aligned with product requirements.
- Collaborating with developers and stakeholders to translate business goals into user-centered solutions.
- Optimizing feature workflows through usability evaluation and iterative design improvements.
- Contributing to scalable UI systems by standardizing reusable components and interaction patterns.

BlackHardStone / UI/UX Designer (Internship)

3 Months

- Contributed to interface modernization initiatives by refining layouts, improving accessibility standards, and enhancing visual hierarchy.
- Collaborated with marketing and product teams to maintain brand consistency across digital assets.

Projects

Modern IRCTC Portal – End-to-End UI/UX Redesign

[View Project](#)

- Led the end-to-end redesign of the IRCTC government website, enhancing usability, accessibility, and visual appeal for seamless ticket booking and travel services. Implemented a modern, user-centric interface.

ExpenseFlow Tracker (Mobile App)

[View Project](#)

- Designed a mobile-first expense tracking app with real-time financial dashboards, intuitive transaction logging, and data visualization features to improve budgeting clarity and spending awareness.

Student Study Hub Dashboard (Web App)

[View Project](#)

- Developed a centralized student dashboard with structured information architecture, task management systems, and performance analytics to reduce context switching and improve academic planning efficiency.

Education

Makhanlal Chaturvedi National University Bhopal, MP,
Post Graduation Diploma in Computer Application

January 2023 – March 2024

Vikramaditya College, Jabalpur, MP,
Bachelor of Commerce (B.Com)

July 2019–August 2022
